Owner: <first-name> <last-name>

Today's phone number _____

Client ID:<number>

<phone>

<address> <city>

Patient: <animal>

Species: <species>

Breed: <breed>

Sex: <sex-name> Birthdate: <birthday> Weight: <weight>

I am the owner or the agent for the owner of the patient described above, and I have authority to execute this document.

I hereby consent and authorize Dr Kimberly Harrell, DVM and Bay Breeze Animal Clinic's staff to perform the following procedures or operation(s):

The nature of these operation(s) and/or procedure(s) has been explained to me, and I understand what will be done. I also understand that BBAC staff will perform a full examination on my pet prior to administering anesthesia. However, a Pre-operative blood profile is **HIGHLY RECOMMENDED** to insure that my pet is in a low risk category for anesthesia and surgical procedures.

Pre-op Blood Profile consists of a chem. Panel – Liver, Kidney, and diabetes screen, a CBC and electrolyte profile. Patients 10 years and older are required to have pre-op blood profile done.

I (accept ___) (do not accept ___) pre anesthetic lab work – additional Cost \$50.00

The patients must be current on vaccinations. If they are not current then the patient will be vaccinated and you will be charged appropriately.

Cats must be current on Rabies and FVRCP. Felv is optional. Cats must be tested prior to receiving the FELV vaccine if they have not been tested in the past.

Current _____ Not Current on _____ Felv vaccine _____

FELV/FIV test _____

Dogs must be current on Rabies, DHLPP and Bord.

Current _____ Not current on _____

If your pet is having a tumor/mass removed, we highly recommend the tumor be analyzed to determine the nature and possibility of malignancy \$108.00 ___ YES ___ DECLINED

If your pet is having a professional dental cleaning and tooth extractions are indicated, do you authorize the veterinarian to extract teeth as needed or contact you first (if you do not check yes then teeth will not be extracted unless you are directly contacted) ___ YES ___ Contact me first

All pets will be given **capstar** to treat for fleas. This is included in the cost of any surgery.

If your pet has ticks, it will be treated with Frontline plus and you will be charged \$19.00 for this treatment.

Additional services available at an additional fee. Please check all that apply
